Yesterday was an exciting day for me, **AlabamaGermany Partnership**, and the state of Alabama, as we joined the German-based company, **Heiche US Surface Technologies (SC) INC. & (AL) LLC**, groundbreaking in Jasper, Walker County. Their substantial investment will open an advanced metals coating facility for the auto industry. The current building of 53,000+ sq ft will not quite do it so they will be doubling the size and creating at least well-paying 73 jobs. We are proud to have Heiche as an AlabamaGermany Partnership (AGP) member. WELCOME!

Project groundbreakings are my favorite part of working in economic development. We are thrilled to welcome **Heiche US Surface Technologies (SC) INC. & (AL) LLC** to Walker County, the Birmingham region and the state of Alabama. Heiche is bringing millions of dollars in capital investments to the community and will be creating over 70 well-paying jobs. Congratulations to our friends at the Walker County Development Authority and **Made in Alabama - Alabama Department of Commerce** for their impressive work on this complex project. On to the next one!

### Press Release...For Immediate Release

#### Agracel chosen as developer for Heiche Surface Technologies facility in Jasper, Alabama.

A ceremonial groundbreaking and lease signing ceremony was held January 27th at the Jasper Industrial Park. Agracel is purchasing a 50,000 sf speculative building and partnering with Dunn Building Company to expand the facility an additional 50,000 sf. Along with the expansion, Agracel is upfitting the current spec space to accommodate the needs of Heiche. The project marks Agracel's second project in Jasper.

With construction already underway, operations are expected to begin by October 2021. Founded in 1965, Heiche operates facilities in Germany, Hungary and Poland, as well as a U.S. operation in Spartanburg, South Carolina. Heiche, which specializes in the chemical surface treatment of metal parts, serves the automotive, machinery and electronics industries. In 2018, Heiche became part of the publicly traded KAP AG, and a key component of its surface technologies segment. Within this segment, the KAP Surface Technologies group operates in 10 locations with more than 800 employees.

"We are thrilled to be back in Jasper and look forward to our partnership with Heiche. We can not say enough about what a tremendous team effort this was in bringing this project to Jasper. A big thank you to the state, regional, and local leaders as well as the executive team of Heiche for committing to and putting your trust in Agracel," states Justyn Dixon, Director of Development, Gulf States Office.
